You should regularly check the website of the CSSF in relation to any matter of importance to you to see if questions have been added and/or positions have been altered.

1.3) UCITS may invest under certain conditions in other UCI. What are the steps to be considered in order to determine if the investment in the other UCI is eligible? What eligibility rules apply, if any?

1.4) Are non-UCITS ETFs eligible investments for UCITS?
(8 December 2015)

Non-UCITS ETFs belong to the category of open-ended “Other UCI” as illustrated in the chart under question 1.3). Such non-UCITS ETFs are eligible investments for UCITS if they effectively comply with all criteria of articles 2 (2) and 41 (1) e) of the Law 2010 notwithstanding that the offering documents of non-UCITS ETFs grant possibilities which are not equivalent to requirements applicable to UCITS.

Given the specificities of each other ETF, an eligibility analysis must be carried out on a case-by-case basis and the UCITS must continuously ensure that the investment rules applied are equivalent to the investment rules applicable to UCITS, for example, via a system of compliance control or a written confirmation of the ETF or its manager.

1.5) Are UCITS master funds eligible investments for a UCITS which is not a feeder fund?
(8 December 2015)

Yes, if such UCITS master funds fulfil all the criteria of article 41 (1) e) of the Law of 2010.

1.6) Which are the analyses to be conducted to determine the eligibility of transferable securities linked to the performance of other underlying assets (structured financial instruments) within the investment policy of a UCITS?
(8 December 2015)

The analysis of the eligibility of structured financial instruments covers several points.

In order to be eligible in terms of article 41 (1) a-d) of the Law of 2010 and to qualify as transferable securities, the securities in question shall first comply with the legal provisions set down in article 2 of Regulation 2008, completed by point 17 of the CESR guidelines which are attached to CSSF Circular 08/380.

In addition it should be assessed whether these transferable securities contain an embedded derivative within the meaning of articles 2 (3) and 10 of Regulation 2008 or of point 23 of the CESR guidelines.

Two scenarios are possible:

I. Transferable securities embedding a derivative within the meaning of articles 2 (3) and 10 of Regulation 2008 and of point 23 of the CESR guidelines respectively.

In this case, the portfolio manager must apply the "look-through" principle and assess the eligibility of the underlying assets in relation to the provisions regarding financial derivative instruments under article 8 of Regulation 2008.

(A) If the assets underlying the derivative financial instruments qualify as eligible assets according to article 41 (1) of the Law of 2010 and to article 8 of Regulation 2008, then the transferable securities in question are eligible as investments of UCITS.

(B) If the assets underlying the derivative financial instruments do not qualify as eligible assets according to article 41 (1) of the Law of 2010 and to article 8 of Regulation 2008, then the transferable securities in question are not eligible as investments of UCITS pursuant to article 41 (1) a-d) of the Law of 2010.

Nevertheless, if the assets underlying the derivative financial instruments qualify as eligible assets according to article 41 (2) a) of the Law of 2010, the transferable securities in question are eligible as investments of UCITS pursuant to article 41 (2) of the Law of 2010.

Where a transferable security contains an embedded derivative within the meaning of articles 2 (3) and 10 of Regulation 2008 or of point 23 of the CESR guidelines, the requirements of article 42 of the Law of 2010 shall apply to this derivative instrument.
II. Transferable securities which do not contain an embedded derivative within the meaning of articles 2 (3) and 10 of Regulation 2008 or of point 23 of the CESR guidelines.

In principle, the portfolio manager does not need to apply the look-through principle nor assess the eligibility of the underlying assets in relation to the provisions relating to derivative financial instruments set out in article 8 of Regulation 2008.

That said, a UCITS must always be managed in accordance with the principle of risk-spreading. It is therefore, for example, not acceptable for a UCITS to invest exclusively in different securities which are all linked to the performance of the same underlying asset.

As a consequence, the principle of risk-spreading applies to each transferable security as well as to its underlying assets, independently of whether the security contains or not an embedded instrument within the meaning of articles 2 (3) and 10 of Regulation 2008 or of point 23 of the CESR guidelines.

It follows that the portfolio manager as well as the persons responsible for the UCITS shall possess the necessary means to comply with the principle of risk-spreading.

1.7) What kind of investments are eligible in the 10% limit of article 41 (2) a) of the Law (“trash ratio”)?
(8 December 2015)

Only investments in transferable securities and money market instruments other than those referred to in articles 41 (1) a) to d) and 41 (1) h) of the Law of 2010 are eligible in the trash ratio. As a consequence, no instruments other than transferable securities or money market instruments may be eligible under article 41 (2) a) of the Law of 2010.

1.8) Are OTC bond markets in a non-Member State of the European Union eligible markets for a UCITS?
(8 December 2015)

Yes, if such OTC bond markets are regulated, operate regularly and are recognised and open to the public according to article 41 (1) c) of the Law of 2010.

In relation to several OTC bond markets such as, the US OTC Fixed Income Bond Market, the Hong Kong OTC Corporate Bond Market and the China Interbank Bond Market and the OTC bond market organized by the International Capital Market Association (ICMA), the CSSF confirms their eligibility according to art 41 (1) c) of the Law of 2010.

It is worth recalling that the qualification of a given market as regulated market within the meaning of article 41 (1) c) of the Law of 2010 is the responsibility of the UCITS.

1.9) What are the criteria a financial index must comply with in order to qualify as financial index within the meaning of article 41 (1) g) of the Law of 2010?
(8 December 2015)

In order to qualify as a financial index under article 41 (1) g) of the Law of 2010, the following provisions are applicable:
- article 9 of Regulation 2008,
- point 22 of the CESR guidelines,
- ESMA ETFs guidelines,
- ESMA ETFs FAQ.

UCITS are invited to fulfil the financial index eligibility table available on the website of the CSSF in order to provide the CSSF with an overview of the financial index and its use.
2. **Diversification rules**

2.1) Article 48 (2) of the Law of 2010 introduces control/holding limits to UCITS. Do these limits apply at sub-fund level or at umbrella fund level?

*(8 December 2015)*

For the purpose of this Article, the term UCITS shall mean sub-fund. Consequently, the limits apply at sub-fund level.
