

*Commission de Surveillance
du Secteur Financier*

Digital Signature LuxTrust on Adobe Reader

Digital signature on documents delivered by eDesk service.

Documents requested and transmitted by CSSF are digitally signed based on a SSL certificate issued by LuxTrust.

All documents are in PDF format and the validity of the digital signature can be verified on any Internet-PC which has access to the website of the certification authority (LuxTrust) directly in Acrobat Reader after having installed the public certificate of the CSSF.

How to install the certificate in Adobe Reader:

- In Adobe Reader 7 click Document / Trusted Identities / Display: Contacts/ Add Contacts / Browse / Select and import the downloaded file / Manage Trusted Identities / Display: Certificates / Select the certificate «Commission de Surveillance du Secteur Financier» / Edit Trust / Click «Signatures and as a trusted root» and «Certified Documents».
- In Adobe Reader 9 click Document / Manage Trusted Identities / Display: Contacts / Add Contacts / Browse / Select and import the downloaded file/ Manage Trusted Identities / Display: Certificates / Select the certificate «Commission de Surveillance du Secteur Financier» / Edit Trust / Click «Use this certificate as a trusted root» and «Certified Documents».
