## **Annex 5**

### **Luxembourg supplement to ISQC 1 on the retention of the working papers of the *réviseur d'entreprises agréé* (approved statutory auditor)**

#### **1. Introduction**

The standard ISQC 1 “Quality control for firms that perform audits and reviews of financial statements, and other assurance and related services engagements” (hereinafter “ISQC 1”) lays down:

- paragraph 46: “The firm shall establish policies and procedures designed to maintain the confidentiality, safe custody, integrity, accessibility and retrievability of engagement documentation.”
- paragraph 47: “The firm shall establish policies and procedures for the retention of engagement documentation for a period sufficient to meet the needs of the firm or as required by law or regulation.”

Paragraphs A56 to A63 include additional explanatory provisions on these two paragraphs.

The purpose of this supplement which is an integral part of the standard on internal quality control ISQC 1, is to clarify the specific provisions on the retention of working files in Luxembourg.

This supplement does not apply to the specific issue of the retention of working papers in the framework of a group audit or where the *réviseur d'entreprises agréé* (approved statutory auditor) involves other auditors in the audit of financial statements other than a group audit.

#### **2. General requirements**

The policy and procedures established by the *réviseur d'entreprises agréé* (approved statutory auditor) or *cabinet de révision agréé* (approved audit firm) to fulfil the requirements of this standard on internal quality control depend on a certain number of factors, such as for example the volume of engagements, the nature of the services as well as its internal organisation. All specific principles laid down in the following sections shall be taken into account by the *réviseur d'entreprises agréé* (approved statutory auditor) when defining his/her policy of retention of files.

The working documentation of the *réviseur d'entreprises agréé* (approved statutory auditor) or *cabinet de révision agréé* (approved audit firm) is composed of physical files, electronic files or a combination of both.

The *réviseur d'entreprises agréé* (approved statutory auditor) or *cabinet de révision agréé* (approved audit firm) shall decide if they keep the physical and/or electronic files themselves or if they delegate these files to a third party. Whereas the first solution is favoured as it allows the *réviseur d'entreprises agréé* (approved statutory auditor) to maintain the control over the implemented procedures, the current regulations do not prohibit the delegation and the *réviseur d'entreprises agréé* (approved statutory auditor) or *cabinet de révision agréé* (approved audit firm) may make use of the delegation under certain specific conditions listed in Section 3 below.

Section 4 includes additional provisions as regards the duration of the retention of working files.

#### **3. Location for the retention of working files**

##### **3.1. Physical files**

The following provisions shall apply to audit engagements referred to in point (34)(a) of Article 1 of the Law of 23 July 2016 concerning the audit profession (hereinafter the “Audit Law”).

The professional establishment of the *réviseur d'entreprises agréé* (approved statutory auditor) shall have an infrastructure suited to the exercised activities, within which a central location for the retention of physical files has been arranged. In accordance with the requirements under the Audit Law, this professional establishment shall be located in Luxembourg.

During the audit engagement, the transportation of physical working files between the different locations where they are used shall be limited to a minimum. The *réviseur d'entreprises agréé* (approved statutory auditor) shall ensure the working files in the different locations where they are used are safe and restricted, as far as possible, their access to the sole members of his/her team and the persons who must access the files according to the standards. In general, the working files cannot be kept, even on a temporary basis, outside the Luxembourg territory. In case where the *réviseur d'entreprises agréé* (approved statutory auditor) must travel abroad with his/her working files, s/he shall ensure their confidentiality, security and integrity. In the case of an audit team, the signatory partner of the report shall be responsible for deciding on the need to transport the files abroad and for ensuring their confidentiality, security and integrity.

After the finalisation of the engagement documentation and if the *réviseur d'entreprises agréé* (approved statutory auditor) keeps the physical files him/herself, the latter must be stored in the central location for retention of files. The management of access to this central retention location must be organised so as to ensure the traceability of all access to the physical files.

The working files may be kept by a third party (which may be the audit client itself) on Luxembourg territory, insofar as this third party ensures the application of the minimum requirements laid down in paragraphs 46, 47 and A56 to A63 of ISQC1 and insofar as a file is submitted to the CSSF according to the arrangements provided for in Section 3.3. For reasons of accessibility and confidentiality of the physical files, it is not permitted to keep the physical files abroad.

### **3.2. Electronic files**

The IT function varying from one *réviseur d'entreprises agréé* (approved statutory auditor) to another, the latter shall ensure the appropriate application of the requirements laid down in paragraphs 46, 47 and A56 to A63 of ISQC1 with respect to electronic files and have internally the necessary IT competences in order to understand at least the implemented IT retention solution(s).

The electronic files may be kept by a third party (which may be the audit client itself) on Luxembourg territory and, possibly, outside Luxembourg territory, insofar as this third party ensures the application of the minimum requirements laid down in paragraphs 46, 47 and A56 to A63 of ISQC 1 and insofar as the conditions under Section 3.3 are met.

### **3.3. Outsourcing the retention of working files**

Outsourcing the retention of working files poses a number of risks, among which in particular the risk to compromise the confidentiality of data included in the files. The Audit Law provides for the lifting of the professional secrecy obligation of the *réviseur d'entreprises agréé* (approved statutory auditor) only in limited cases laid down in Article 28(3), (4) and (5) of the above-mentioned law. It does not apply to a third party (even with a PFS status in Luxembourg) or another entity (located in Luxembourg or abroad) of the network to which the *réviseur d'entreprises agréé* (approved statutory auditor) belongs.

Consequently, any outsourcing shall be treated with caution and in complete compliance with the following conditions:

- 1) The *réviseur d'entreprises agréé* (approved statutory auditor) must inform the CSSF of each outsourcing project s/he is contemplating with respect to the retention of the working files by describing the main arrangements.
- 2) The *réviseur d'entreprises agréé* (approved statutory auditor) (or the administrative body of the *cabinet de révision agréé* (approved audit firm)) must duly document his/her risk analysis of the outsourcing project as well as the responses to these risks. S/he must notably express his/her views as to the reputation, experience and reliability of the third party to whom s/he intends to outsource the retention of the working files.
- 3) Any outsourcing must be laid down in a written service contract which addresses all aspects related to the retention of the working files laid down in Section 2 of this Luxembourg supplement to ISQC 1. Access by the *réviseur d'entreprises agréé* (approved statutory auditor) to the kept files must be unrestricted and granted without undue delay to any authorised person. Particular attention shall be paid in this respect to aspects such as continuity, revocability of outsourcing and upholding of the internal and external control integrity. Moreover, the agreement shall provide a clear description of the responsibilities of both parties.
- 4) The *réviseur d'entreprises agréé* (approved statutory auditor) shall assess, in view of possible legal or other risks, the necessity to inform or not his/her clients of this outsourcing. The risks to consider may

originate, for example, from an incompatibility of the outsourcing with certain contractual clauses towards those third parties or with certain legal provisions as regards privacy protection.

- 5) The responsibility of the outsourcing management shall be borne by the *réviseur d'entreprises agréé* (approved statutory auditor) or, in case of a *cabinet de révision agréé* (approved audit firm), by the partner in charge of the risk management function within the firm.
- 6) The *réviseur d'entreprises agréé* (approved statutory auditor) must be able to carry on business as usual in case of exceptional events, such as an interruption of communication means for an extended period of time. The *réviseur d'entreprises agréé* (approved statutory auditor) shall take the necessary measures to be able to adequately transfer the kept files to a different provider or to take over the retention him/herself whenever one of the requirements under Section 2 of this Luxembourg supplement to ISQC 1 is likely to be compromised.
- 7) The electronic files may only be kept in encrypted form and the encryption key must be held by the *réviseur d'entreprises agréé* (approved statutory auditor) or, in case of a *cabinet de révision agréé* (approved audit firm), by the partner in charge of the risk management function within the firm. This condition shall apply to the outsourcing of the retention of electronic files in both Luxembourg and abroad. The *réviseur d'entreprises agréé* (approved statutory auditor) or, in case of a *cabinet de révision agréé* (approved audit firm), the partner in charge of the risk management function within the firm must ensure that the encryption quality is appropriate. Any other process for the retention of electronic files shall be subject to prior authorisation of the CSSF.
- 8) As regards physical files stored with a third party in Luxembourg, no access to the files by a third party should be possible without informing beforehand the *réviseur d'entreprises agréé* (approved statutory auditor).

#### **4. Duration of the retention of working files**

For the purposes of the public oversight exercised by the CSSF, *réviseurs d'entreprises agréés* (approved statutory auditors) and *cabinets de révision agréés* (approved audit firms) shall keep the working files of the audit engagements for 7 years at least, the minimum frequency for quality assurance reviews laid down in the law being 6 years.

As regards civil professional liability claims, Article 11 of the Audit Law lays down that these claims brought against a *réviseur d'entreprises agréé* (approved statutory auditor) or *cabinet de révision agréé* (approved audit firm) shall be time-barred after 5 years as from the date of the audit report.

#### Prohibited non-audit services provided by an affiliate within the network to an entity registered in a third-country and under control of the audited public-interest entity

*“When a member of a network to which the réviseur d’entreprises agréé (approved statutory auditor), the cabinet de révision agréé (approved audit firm) or the audit firm carrying out a statutory audit of a public-interest entity belongs provides any of the non-audit services, referred to in the above-mentioned paragraph, to an undertaking incorporated in a third country which is controlled by the audited public-interest entity, the réviseur d’entreprises agréé (approved statutory auditor), the cabinet de révision agréé (approved audit firm) or the audit firm concerned shall assess whether his, her or its independence would be compromised by such provision of services by the member of the network.*

*If his, her or its independence is affected, the réviseur d’entreprises agréé (approved statutory auditor), the cabinet de révision agréé (approved audit firm) or the audit firm shall apply safeguards where applicable in order to mitigate the threats caused by such provision of services in a third country. The réviseur d’entreprises agréé (approved statutory auditor), the cabinet de révision agréé (approved audit firm) or the audit firm may continue to carry out the statutory audit of the public-interest entity only if he, she or it can justify, in accordance with Article 6 of Regulation (EU) N° 537/2014 and Article 22 of the Law of 23 July 2016 concerning the audit profession, that such provision of services does not affect his, her or its professional judgement and the audit report.”*

For the purposes of this paragraph:

- (a) being involved in the decision-taking of the audited entity and the provision of the services referred to in points b), c) and e) of the above-mentioned list shall be deemed to affect such independence in all cases and to be incapable of mitigation by any safeguards.
- (b) provision of the services referred to in the above-mentioned list other than points b), c) and e) thereof shall be deemed to affect such independence and therefore to require safeguards to mitigate the threats caused thereby.” [AR/Article 5(5)]
