Re: Update of the Circular CSSF 11/509 in accordance with Directive (EU) 2019/1160

Luxembourg, 28 July 2021

Ladies and Gentlemen,

To all undertakings for collective investment in transferable securities governed by Luxembourg law, to UCITS of another Member State of the European Union wishing to market their units in Luxembourg and to those involved in the operation and control of these undertakings

1. This circular amends Circular CSSF 11/509 by integrating technical modifications related to Directive (EU) 2019/1160 of 20 June 2019 amending the UCITS Directive.
2. Circular CSSF 11/509 is amended in accordance with the attached Annex. To facilitate reading and understanding, the Annex presents under a 'track changes' format the changes made herewith to Circular 11/509.

Re: ~~New~~ Notification procedures to be followed by a UCITS governed by Luxembourg law wishing to market its units in another Member State of the European Union and by a UCITS of another Member State of the European Union wishing to market its units in Luxembourg

Luxembourg, 28 July 2021

To all undertakings for collective investment in transferable securities governed by Luxembourg law, to UCITS of another Member State of the European Union wishing to market their units in Luxembourg and to those involved in the operation and control of these undertakings

Ladies and Gentlemen,

Directive 2009/65/EC of the European Parliament and the Council of 13 July 2009 on the coordination of laws, regulations and administrative provisions relating to undertakings for collective investment in transferable securities (UCITS Directive) has introduced, amongst others, a new notification procedure for UCITS which intend to market their units in a Member State of the European Union (Member State) other than those in which they are established. This notification procedure, which aims to facilitate the distribution of UCITS in the European Union, is in principle applicable directly between the supervisory authorities of the Member States on the basis of a file that the UCITS must submit to the supervisory authority of the home Member State.

The provisions of the aforementioned Directive 2009/65/EC have been transposed by Chapters 6 and 7 of the Law of 17 December 2010 relating to undertakings for collective investment (hereafter "2010 Law").

[The UCITS Directive was amended by Directive \(EU\) 2019/1160 of the European Parliament and of the Council of 20 June 2019. Amongst others, it extends the notification procedure insofar as it considers the de-notification of sub-funds and types of units of UCITS, which is also carried out directly between the supervisory authorities of the Member States on the basis of a file that the UCITS must submit to the supervisory authority of the home Member State.](#)

This Circular aims to clarify the practical and technical procedures that UCITS must follow for cross-border marketing.

1. UCITS governed by Luxembourg law marketing their units in another Member State

In accordance with Article 54 of the 2010 Law, a UCITS shall first submit a notification letter to the CSSF which contains information on the arrangements for marketing in the host Member State as well as the latest versions of a number of documents specified in more detail under point 1.3 of this Circular.

The CSSF shall verify that the documentation provided by the UCITS in accordance with paragraphs 1 and 2 of Article 54 is complete prior to transmitting the complete documentation to the competent authorities of the host Member State.

This regulator to regulator transmission is notified without delay by the CSSF to the UCITS, which may access the market of the relevant host Member State from that date (for technical details see Annex 1, point 3)).

It should be noted that in accordance with Article 54 (4) of the 2010 Law, the UCITS notifies the competent authorities of the host Member State itself in case of any amendment to the previously communicated information regarding the arrangements for marketing.

1.1 Notification procedure

~~Two-Three~~ notification procedures have to be distinguished, namely one where a file is deposited with the CSSF, one in case of de-notification of a UCITS, and one where a notice of amendment is to be submitted directly by the UCITS to the competent authority of the host Member State.

- a) The submission of a notification file with the CSSF applies in all cases where a UCITS proposes to market its units in another Member State of the European Union, in particular:
- upon notification of the competent authority of a host Member State by a UCITS proposing to market all or part of its units in that State;
 - upon notification of the competent authority of a host Member State by an umbrella UCITS proposing to market all or part of its units of one or several of its compartments in that State; and
 - upon notification of the competent authority of a host Member State by an umbrella UCITS proposing to market all or part of its units of one or several additional compartments (whereas the marketing of units of other compartments has already been notified in that State).

To be noted that for each new share class an initial notification should be sent.

b) In case of de-notification, the UCITS must make an update notification to the CSSF. This has to be done on a sub-fund and/or share class level.

~~b)c)~~ A written notice of amendment is to be addressed directly to the competent authority of the host Member State in case of an amendment to the information regarding the arrangements intended for marketing set out in the notification letter or an amendment of the share classes to be marketed. This notice is to be sent before implementing the amendment in question. It is not necessary to file a copy of this notice with the CSSF.

The CSSF remains responsible, however, for the approval of any amendment to the prospectus and constitutional documents of the UCITS and this approval must be obtained prior to sending the aforementioned notice of amendment, to the competent authority of the host Member State.

1.2 Submission of the notification file to the CSSF

The CSSF requires that the notification file be submitted electronically using one of the following methods:

- systems based on channels accepted by the CSSF in accordance with the provisions of Circular CSSF 08/334;
- direct filing of the required documents on the CSSF website (subject to the preliminary conditions specified on the CSSF website).

Within the framework of the notification procedure in electronic form, UCITS must submit a notification file containing the documents described in point 1.3 of this Circular.

It is also necessary to ensure the preparation and transmission to the CSSF of a complete notification file for each host Member State in which the UCITS intends to market its units.

From a technical point of view, all the documents constituting a notification file intended for a given host Member State must be grouped together in a “single package” by the host Member State (zip file). Further details on the nomenclature and format for electronic transmission are specified in Annexes 1, 2, 3 and 4 of the Circular.

1.3 The documentation constituting the notification file

With regard to the notification of the marketing of units of a UCITS in another host Member State, the notification file transmitted electronically to the CSSF must contain the following documents:

Type of document	Abbreviation	Specifications
Notification letter	LN	<p>Details on the format and mapping of the notification letter can be found in Annex 4.</p> <p>The notification letter must be exactly like the template provided for in Commission Regulation (EU) No 584/2010 of 1 July 2010 implementing Directive 2009/65/EC of the European Parliament and of the Council as regards the form and content of the standard notification letter and UCITS attestation, the use of electronic communication between competent authorities for the purpose of notification, and procedures for on-the-spot verifications and investigations and the exchange of information between competent authorities.</p>
CSSF attestation letter	AT	The attestation to be attached to the file is the attestation that the CSSF delivered to the UCITS together with the latest visaed prospectus.
Management Regulations or Articles of incorporation	MR AI	The latest version of the Management Regulations of the common funds or the latest consolidated version of the Articles of Incorporation of investment companies must be annexed to the file as a single document.
Prospectus	PC	The prospectus to be annexed to the file has to be the latest prospectus visaed by the CSSF.
Key Investor Information Document	KI	According to the Law of 17 December 2010 the KI is to be provided in a language or

Type of document	Abbreviation	Specifications
		translation accepted by the host Member State of the UCITS. In the absence of a KI during the transitional period ending on 30 June 2012, the simplified prospectus must be attached to the file. This simplified prospectus (PS) must be the latest simplified prospectus visaed by the CSSF.
Latest Report	AR SR	The audited annual report (AR) or unaudited semi-annual report, if available. The most recent published reports must be attached.
Marketing arrangements	MP	This document is optional and provides additional information on the arrangements made for marketing the units of a UCITS in the case where the structure of the notification letter would not permit the internal methods of marketing to be reproduced exactly.
Confirmation of payment	CP	This document should only be annexed to the file for marketing applications in host Member States requiring confirmation of the payment of tax to which the UCITS is subject in the host Member State.

To be noted that for de-notifications, the file should include the letter of de-notification.

Other documents could also be added but they have to be part of the list above.

The specifications on the format of the de-notification letter are presented in Annex 6.

1.4 Processing of the notification file

For the purpose of ensuring that only complete and compliant notification documentation is submitted to a host Member State authority of a UCITS, the notification procedure, as implemented by the CSSF, provides for the notification files, to be subject to a number of formal verifications upon receipt by the CSSF. An indicative table of the formal verification rules to which the notification file is subject upon receipt by the CSSF is provided in Annex 5. These rules may be adapted by the CSSF without reiteration of this Circular.

Where the CSSF notices, following the formal verification upon receipt of the file, that the file is incomplete or does not comply with the relevant technical requirements, the UCITS shall be informed, through the same communication channel it used for submitting the notification file to the CSSF, of the reason(s) preventing the submission of the file to the competent authorities of the relevant host Member State. It is then the responsibility of the UCITS to submit a new notification file duly completed and corrected in respect of the deficiencies which resulted in its rejection.

If a host Member State authority does not, for any reason, accept a notification file submitted by the CSSF, the UCITS shall be informed of the reason(s) of refusal through the same communication channel it used for submitting the file to the CSSF. It is then the responsibility of the UCITS to submit a new notification file to the CSSF duly completed and corrected in respect of the relevant deficiencies.

As part of the processing of the file, it is verified, amongst other, that the UCITS attestation issued by the CSSF, the visaed prospectus, the management regulations or the articles of incorporation, the Key Investor Information Documents and the financial reports contained in the notification file, are fully consistent with the electronic versions of these documents in possession of the CSSF. In order to be able to apply the controls referred to above, the CSSF must therefore be, at all times, in possession of the latest electronic versions of the PC, MR or AI, KI, AR and SR documents.

In this context, the CSSF would like to draw the attention of the persons responsible for the UCITS to the fact that the documents MR or AI and KI are currently not at the disposal of the CSSF in electronic form. We therefore request the persons responsible for the UCITS to organise the electronic submission to the CSSF of the latest versions of the relevant documents at their earliest convenience and, in any case, to ensure the filing of these documents prior to the submission of a notification file to the CSSF.

[The methods for the submission of an electronic version of the documents to the CSSF are set out under Circular CSSF 19/708.](#)~~The methods for the submission of an electronic version of the documents to the CSSF are set out~~

~~under item 1. of CSSF Circular 08/371. For the purposes of collecting the MR or AI and KI documents, the nomenclature described under item 2. of CSSF Circular 08/371 has been extended and adapted as set out in Annexes 2 and 3. However, the former nomenclature described under item 2. of CSSF Circular 08/371, however, remains valid until 30 June 2012.~~

2. UCITS established in another Member State which intend to market their units in Luxembourg

If a UCITS established in another Member State intends to market its units in Luxembourg, the UCITS must ensure that the CSSF receives the documentation referred to in paragraphs 1 and 2 of Article 93 of the UCITS Directive as well as an attestation that the UCITS fulfils the conditions imposed by the UCITS Directive from the competent authorities of the home Member States.

However, in the event of an amendment having an impact on the notification letter sent to the CSSF at the time when the UCITS intends to market its units in Luxembourg or of a change of the share classes to be marketed in Luxembourg, the UCITS shall directly inform the CSSF before implementing this amendment.

[Complete information about the legal, regulatory and administrative provisions specifically applicable to the marketing arrangements of the units of UCITS in Luxembourg are available on the website of the CSSF under the section Investment funds and vehicles > Undertakings for collective investment in transferable securities \(UCITS\) > Marketing of units/shares of UCITS.](#)

~~Complete information about the legal, regulatory and administrative provisions specifically applicable to the marketing arrangements of the units of UCITS in Luxembourg are available on the website of the CSSF under the section Investment Funds > Marketing of units/shares of an EU undertaking for collective investment in transferable securities (UCITS) in Luxembourg~~

Annexes: 65

Annex 1:

Notification package and notification systems

1) General information on the notification package and notification system

1.1 Notification package

“Notification package” means a .zip file which

- complies with the standard for .zip files established in Circular CSSF 08/334 (see descriptive and technical details in Annex 2 item 2. and Annex 3 item 2. respectively)
- contains the notification documents listed under item 1.3. of this Circular and which complies with the naming conventions defined in Annex 2 item 1. and Annex 3 item 1. respectively.

1.2 Notification systems

A notification system is an infrastructure for submission of notification packages to the CSSF that only a **channel operator 08/334 or the CSSF** itself has the right to propose. Such a system can have two operating modes:

- a) **transport notification system**: in this case, the system transmits to the CSSF notification packages which are entirely generated by the applicant or its duly authorised remitter;
- b) **notification system with generation**: in this case, the notification system supports the user in the preparation of the notification packages and in particular of the two versions of the notification letter detailed in Annex 4 of this Circular. In this respect, it may be based on the input of the remitter and the content of its systems.

2) Notification systems accepted by the CSSF

2.1 Systems based on the channels pursuant to Circular CSSF 08/334

The notification channels operate on the basis of channel infrastructures relating to Circular CSSF 08/334, but **do not use registration of certificates, electronic signatures and encryption mechanisms**. However, they use other features of these channels, such as the contract concluded between the applicant and the channel operator, the management of the user accounts by the operator, the transmission and verification of the naming conventions.

The channels can operate in two different ways:

a) "Generation" notification channel

This refers here to transmission channels 08/334 in "notification system with generation" mode. These channels support the applicant in the generation of the XML and PDF versions of the notification letter and in the composition of the notification package.

The login used in the notification system is accepted by the CSSF as a signature, as provided for in part C of Annex I of the Commission Regulation (EU) No 584/2010 dated 1 July 2010.

Remark: Regarding the de-notification letter, the generation of an XML is not required.

b) "Transportation" notification channel

This refers to a transmission channel 08/334 in "transportation notification system" mode.

The login used in the notification system is accepted by the CSSF as a signature on the notification letter; the letter itself needs not to be signed in this case.

2.2 Direct filing with the CSSF

This refers to a transmission notification system which enables the applicant to download the notification package directly on the CSSF website. This can be done through the following URL:

To register: <http://register.cssf.lu>

To submit a notification package <http://upload.cssf.lu>

The CSSF only recommends the use of this channel for small-sized entities with low frequencies which face difficulties in accessing the system of 08/334 channels. Consequently, volumetric restrictions are provided for therein.

This channel is used in the following manner:

- generation of the notification package by the UCITS
- registration of an E-mail address in the mentioned URL form which enables the CSSF to communicate the notification results to the UCITS
- The CSSF returns an E-mail to this address with a link which allows access to the filing system; this access is valid for a limited period.
- The reporting entity can then download its notification package(s), provided that the name of each package is different and complies with the naming convention.

3) CSSF return files

There will be three types of CSSF return files:

Code	XML Schema	Content
NOTFBR	FileAcknowledge	Standard acknowledgement of receipt of 08/334 channels (this file will be returned only at the level of 08/334 channels not at the level of the web filing which has its own mechanisms). Only the first step (verification of the naming convention of the submitted package) will depend on the submitted file, the three other steps (Authentication, Signature, Decryption) will automatically have the result 'A' (Accepted) because these mechanisms are not applicable for notifications.
NOTFDB	notificationreply	This type of return will be generated by the CSSF following the analysis of the notification file by the CSSF. This file is generated by the CSSF after either: <ul style="list-style-type: none"> • the proper performance of all the automated and manual tests of the CSSF. The tag <CSSF_Reply> / <CSSF_Status> will then contain: "Accepted by CSSF". In parallel, the CSSF will send the notification package to the authority of the relevant Member State of the European Union • failure of at least one automated or manual test of the CSSF and thus the rejection of the notification package by the CSSF. The tag <CSSF_Reply> / <CSSF_Status> will then contain "Technical verification failed" (failure of the automated rules) or "Rejected by CSSF" (CSSF refusal due to the results of the manual verification) and informs the UCITS that the CSSF has not forwarded the notification application to the

		authorities of the relevant Member State of the European Union; a new notification package is then to be sent. One or several error messages relating to the automated tests (<CSSF_Reply> / <Verification_Results>) or a message stating that one (or several) manual test(s) failed (<CSSF_Reply> / </Message>) will inform the UCITS of the reasons for the failure of its package.
NOTFBH	notificationreply	This type of return will be generated by the CSSF following the analysis and the refusal of the notification file by the authorities of the Member State of the European Union in which the UCITS wishes to market its units and on the basis of its return to the CSSF. The structure <Host_Reply> / <Host_Status> will then contain the status "Rejected by host". The tag <Host_Reply> / <Message> will then contain more information on the reasons for the refusal by the relevant authority.

A **NOTFDB** return file will, in any case, be returned to the UCITS. A **NOTFBH** file will **only** be returned **in case of refusal by the relevant authority**.

Consequently, XML schemas will be published on www.cssf.lu under the heading Legal Reporting **for UCI** / File Transport and Data Protection.

The returns are made as follows:

Channel	Return by	Practical arrangements in respect of the return
08/334	Channel	Return by channel
Website filing http://www.cssf.lu	E-mail	Return to an E-mail address to be entered (in duplication) at the filing

Annex 2:

Description of the nomenclature to be complied with for the transmission of zip files and documents contained therein

1) Details on the nomenclature used for documents

All the documents below are to be sent in PDF format. The files must comply with the following nomenclature:

1.1 Notification letter

DOCREP-ONNNNNNNN-CCCCCCCC-PPPP-YYYY-MM-DD-LN-LL-0000.pdf

LN for Notification Letter

The notification letters submitted via a channel which is accepted pursuant to the provisions of Circular CSSF 08/334 do not need to be signed electronically as the identification of the applicant has already been done by the channel operator.

~~From 1 July 2011, t~~he notification letter must also be attached in XML format (see Annex 3).

The de-notification letter should refer to the sub-fund and/or share class in the nomenclature. Indeed, the de-notification package is limited to one UCITS.

1.2 Prospectus

The prospectus, visaed by the CSSF, must be sent using the following nomenclature:

DOCFDB-ONNNNNNNN-CCCCCCCC-PPPP-YYYY-MM-DD-PC-LL-0000.pdf

where

DOCFDB		the identifier of the delivery type of a document visaed by the CSSF (constant)
O		the letter identifying the UCIs
NNNNNNNN		the identification number of the UCI (preceded by 0 when the number has less than 8 digits)

CCCCCCCC	designates	the identification number of the compartment (preceded by 0 when the number has less than 8 digits)
PPPP		the identification number of the type of units (preceded by 0 when the number has less than 4 digits)
YYYY*		the year (of the prospectus)*
MM*		the month (of the prospectus)*
DD*		the day (of the prospectus)*
PC		Prospectus
LL		the code of the language in which the prospectus is established
0000		

*The date YYYY-MM-DD indicates the date of the prospectus and not the date on which it is sent

Particular cases:

When it is a classic UCI without any sub-funds CCCCCC=00000000

When a full prospectus covers more than one sub-fund CCCCCC=00000000

When a full prospectus covers more than one type of units PPPP=0000

1.3 The Key Investor Information Document

This document must be sent under the following nomenclature:

DOCREP-ONNNNNNNN-CCCCCCC-PPPP-YYYY-MM-DD-KI-LL-0000.pdf

(non-vised version)

where

DOCREP is the identifier of the delivery type of a document which has not been visaed by the CSSF (constant) and

KI for Key Investor Information Document

1.4 Annual report

DOCREP-ONNNNNNNN-CCCCCCC-PPPP-YYYY-MM-DD-AR-LL-0000.pdf

AR for Annual Report

1.5 Semi-Annual Report

DOCREP-ONNNNNNNN-CCCCCCCC-PPPP-YYYY-MM-DD-SR-LL-0000.pdf

SR for Semi-Annual Report

1.6 Constitutional Documents

DOCREP-ONNNNNNNN-CCCCCCCC-PPPP-YYYY-MM-DD-MR-LL-0000.pdf

MR for Management Regulations of UCITS which have adopted the form of a common fund in the consolidated version (one single document)

DOCREP-ONNNNNNNN-CCCCCCCC-PPPP-YYYY-MM-DD-AI-LL-0000.pdf

AI for Articles of Incorporation of UCITS which have adopted the corporate form in the coordinated version (one single document)

1.7 CSSF attestation

The last attestation issued by the CSSF (in principle, the one issued together with the latest visaed prospectus) must be sent under the following nomenclature:

DOCFDB-ONNNNNNNN-CCCCCCCC-PPPP-YYYY-MM-DD-AT-LL-0000.pdf

AT for Attestation

1.8 Confirmation of Payment

DOCREP-ONNNNNNNN-CCCCCCCC-PPPP-YYYY-MM-DD-CP-LL-0000.pdf

CP for Confirmation of Payment. (Optional document according to the Member State of the European Union)

1.9 Marketing provisions

DOCREP-ONNNNNNNN-CCCCCCCC-PPPP-YYYY-MM-DD-MP-LL-0000.pdf

MP for Marketing Provisions for the Member State of the European Union in which the UCITS wishes to market its units.

1.10 Simplified prospectus

The simplified prospectus visaed by the CSSF must, where appropriate, be sent under the following nomenclature:

DOCFDB-ONNNNNNNN-CCCCCCCC-PPPP-YYYY-MM-DD-PS-LL-0000.pdf

PS for simplified prospectus

2) Details on the nomenclature used for zip files

For each Member State of the European Union in which the UCITS intends to market its units, a complete file (a “package”) is to be prepared and sent to the CSSF. This package (zip file) must contain all the documents required for that Member State and each document must comply with the nomenclature referred to in paragraph 1). This zip file must comply with the following nomenclature:

NOTREP-ONNNNNNNN-LU-HH-INI-YYYYMMDDHHMMSS.zip

NOTREP is a constant which identifies the type and direction of the file

O is the letter which identifies the UCITS

NNNNNNNN the identification number of the UCITS (preceded by 0 when the number has less than 8 digits)

LU for Luxembourg

HH is the ISO code for the Member State of the European Union of marketing for which the file is destined

INI is the constant for initial notification

YYYYMMDDHHMMSS date, hour, minute, second of the creation of the zip file

A file using a name which has already been used before shall be rejected; when a correction is sent, the creation date must then be adapted.

Annex 3:

Table of technical specifications of the nomenclature used for the documents and the zip file to be transmitted

This chapter sets out the nomenclature conventions described in descriptive form in Annex 2.

Format and mapping of the **initial** notification letter

1) General information

A notification package must contain the notification letter in the two following formats:

- in XML format as an instance of the "notifletter.xsd" schema. The XML schema described is published on www.cssf.lu under the heading Legal reporting [for UCI](#) / File transport and Data protection.
- in PDF format exactly replicating the template published by the Commission in one of the following languages DE, FR, EN, as defined in the table below:

<Attachment>/<Document_Name> of types MP, CP, MR, ...

Title of document(s) or name of electronic file(s) attachment

8) General remark on the fields “CCCCCCCC” and “PPPP” in the notification letter in XML format

Field	Value	Meaning
CCCCCCCC	<>00000000	-the UCI is a UCI with compartments and the document relates to the compartment CCCCCCCC to be specified in the XML notification letter under <Referred_Substructures>
CCCCCCCC	=00000000	-UCI without compartments -the UCI is a UCI with compartments and the document relates to a subset of the compartments to be specified in the XML

		notification letter under <Referred_Substructures>
PPPP	<>0000	-the document relates to the PPPP part to be specified in the XML notification letter under <Referred_Substructures>
PPPP	=0000	-the document relates to a subset of units to be specified in the XML notification letter under <Referred_Substructures>

- In the event where a document **relates to the UCI as a whole** (e.g. the full prospectus PC, the attestation AT or the notification letter LN), the optional structures **<Referred_Substructures>** **must not be indicated**.

Annex 5:

a) Table of formal verification rules of the CSSF applied to “initial” notifications

Important note: This list shows the rules in force at the time of the publication of this Circular. It is merely indicative and the CSSF reserves the right to amend the verification rules (e.g. change the severity) without prior notice and without updating this document.

- 1) Zip file: Antivirus check
- 2) Zip file: Compliance with Nomenclature and Verification of the existence of exactly one .zip file
- 3) Documents contained in the Zip: Compliance with the Nomenclature
- 4) Verification that all the documents contained in the zip refer to one single UCITS
- 5) Attestation must be the **latest** version delivered and must bear the signature of the CSSF
- 6) Full Prospectus in EN, FR and DE must be the **latest** visaed version and must bear the signature of the CSSF
- 7) The date of KI documents in the notifications submitted after 35 working days following the 31 December of a year must include a reference date of the current year
- 8) The dates of KI documents in the notifications submitted within the first 35 working days following the 31 December of a year must include a reference date of the current or the preceding year
- 9) Verification of the uniqueness of the documents. The same document is accepted in different languages but not in one language with different dates
- 10) Verification of the languages of the documents with the languages allowed by the relevant Member State of marketing of the European Union
- 11) Verification whether the UCITS, the compartment(s) and the type(s) of units exist and are open in the databases of the CSSF

- 12) Verification whether the UCITS is governed by Community law, at the time of the notification
- 13) Verification that, on the date of the prospectus and the Key Investor Information Documents, the UCITS is governed by Community law
- 14) Verification that the ZIP file contains at least the following documents:
 - an LN (notification letter)
 - a PC (full prospectus) bearing the electronic signature of the CSSF
 - a KI (Key Investor Information Document) or (during the transitional phase) a PS (simplified prospectus)
 - MR (management regulations for common funds) or AI (articles of incorporation for corporate UCITS)
 - an AT (certificate) bearing the electronic signature of the CSSF
 - a CP (confirmation of payment) for the Member States of the European Union which require such a document
- 15) Verification that the files are "viewable" (without any password) and printable (security settings of PDFs)
- 16) Verification that the Key Investor Information Document does not exceed three pages
- 17) Verification whether the documents are real pdf documents (and not *.doc or other renamed *.pdf documents)
- 18) Verification that the documents are in PDF-text format
- 19) Those UCITS existing for more than 22 months must enclose an AR (annual report)
- 20) The AR must not be older than 16 months
- 21) Those UCITS which have existed for more than 14 months must enclose a SR (semi-annual report) except if an AR is enclosed
- 22) Those UCITS which send an AR must also enclose a SR (semi-annual report) if the notification date > AR Date + 8 months
- 23) For notifications submitted on the website, verification whether the email address of the applicant is valid

~~24)~~ During the period ending on 1 July 2011, verification whether the marketing Member State of the European Union has either transposed the Directive or is already ready to accept the inter-regulatory simplified notification procedure

~~25)~~24) Verification that the notification relates to a Luxembourg UCITS

~~26)~~25) Verification of the coherence of *<Multi_Compartment_Flag>* and *<Referred_Substructures>*

~~27)~~26) Verification of the coherence between the XML file, the name of the file and database of the CSSF (Notification/Host, Notification/Type, UCITS/ID/Value, UCITS/ID/Value, UCITS/Legal_Form, UCITS/Multi_Compartment_Flag and Management_Company/ID/Value)

~~28)~~27) Verification for each *<ID>* of the XML, that the tag *<type>* with the value "HOME" appears at least once

~~29)~~28) Verification that each file in the zip is referenced **at least once** in the XML in the text area Attachment / Document_Name

~~30)~~29) Verification that each *<Subfund>* and each *<Share>* (whose HOME codes are different from 0) referenced in *<attachments>* exists and is open in the internal data base of the CSSF.

~~31)~~30) Warning: if the CCCCCC part of the name of the file (different from 0) does not have the same value as the HOME Code of each *<Subfund>*

~~32)~~31) Warning: if the PPPP part of the name of the file (different from 0) does not have the same value as the HOME Code of each *<Share>*

~~33)~~32) Warning: Verification that all of the returned ISIN code is the same as the one contained in the internal databases of the CSSF

~~34)~~33) The notification letter must be unique

~~35)~~34) An already existing file cannot be reintroduced in the base

b) Table of formal verification rules of the CSSF applied to de-notifications (“update”)

The rules presented above for the initial notifications are generally applied, with the exceptions of the following points:

- All the rules regarding the XML files are not applicable
- The only mandatory document of the zip file is the de-notification letter
 - If other documents are attached to the zip file, the relevant rules are applied.
- The following additional verifications are performed:
 - Existence of an initial notification
 - Existence of a zip by UCITS and by country

Annex 6:

Format and definition of the de-notification letter

A notification package should include the de-notification letter **only** in PDF format.

Two templates are available on the CSSF website:

- The template UCITS-DE-NOTIFICATION LETTER COMPARTMENT for a sub-fund de-notification (<https://www.cssf.lu/en/Document/ucits-de-notification-letter-ucits-compartment/>)
- The template UCITS-DE-NOTIFICATION LETTER SHARE CLASS for a share class de-notification (<https://www.cssf.lu/en/Document/ucits-de-notification-letter-ucits-share-class/>)
